**Letter of Reference for: South Coast Sundecks & Michael Ravenscroft**

To Whom It May Concern:

We hired Michael Ravenscroft owner of South Coast Sundecks in April 2014 to redo our 600 Sq Ft. Sundeck. After contacting several local companies for quotes, after just one meeting with Michael I knew that his was the company we would hire. His knowledge and experience in the field was demonstrated during our conversation. His product Tufdeck spoke for itself, as it was the nicest vinyl membrane we had seen. Michael's detailed and categorized quote was easy to read. His recommendations were fantastic and very valid.

Onsite Michael supervised his team every step of the way ensuring that the pace was good and quality standards were met. The site was tidied at the conclusion of each day. The men were focussed and respectful. We were very happy with the final outcome. Our deck is beautiful and friends who visit think our vinyl at first glance is planks of wood.

Thanks to Michael and his team.

We would gladly hire Michael again in the future.
