**NOTE:** This document is not an installation guideline. Tuff Industries Inc. will not be responsible for the improper use or installation of Tufdek™ products.

**NOTE:** Do not permit contact with pressure treated lumber

**NOTE:** Do not permit contact with tar or bitumen products.

Tuff-Shield™ is used in a combination of unique PVC waterproofing solutions designed for uncommon building envelope issues. On its own, Tuff-Shield™ is an excellent roofing product, or it can be used as an anti fracture membrane under concrete or tile for areas requiring extra waterproof performance. Tuff-Shield™ can also be combined with any one of the Tufdek™ walkable top sheets to create the industries most unique and long lasting walkable 2 ply roof solution.

## SUGGESTED USES

Tuff-Shield™ is designed for use on flat or low slope roof areas such as suspended slab concrete decks and walkways, traffic-bearing roof decks over habitable living spaces, and underneath tile and exterior light weight concrete.

Tuff-Shield™ 2-Ply is a light weight solution to waterproof areas originally designed as inverted roof systems.

## QUALITY GUARANTEED

Tuff-Shield™ has been assembled to exacting quality control standards by one of North America's leading PVC roof manufacturers. This process is continually monitored and audited ensuring the highest in product quality and standards.
