**RE: South Coast Sundecks & Exteriors**

This Summer we had our existing deck resurfaced with a high quality vinyl; replaced aluminum railings and glass panels; and had sunshades installed on the existing structure.

Michael Ravenscroft and his team were professional and timely in their work right from the initial on-site evaluation/estimate to the finished product. All work to the existing deck and structure were completed as originally discussed and at the agreed upon price.

We are very happy with the quality of the finished product and were very impressed with South Coast Sundecks & Exteriors. We have no hesitation in recommending Michael and his team and would certainly call on them again for future projects.

Sincerely,

**Tami Ellis**
